

FINANCE CONCENTRATION - BUSINESS ADMINISTRATION (B.S.)

The Finance concentration in the Business Administration major helps students develop the strategies they need to manage financial operations. Students will learn how the financial decisions made by firms shape individual organizations and global economies. Through a combination of comprehensive curriculum, case studies, and experiential learning opportunities, students will be able to evaluate and manage the potential risks and rewards of financial decisions, develop strategies to achieve personal and corporate financial goals, analyze financial information and competing opportunities to maximize value, make market forecasts, and analyze securities.

In the Finance profession, detail-oriented problem-solvers analyze the impact of market trends and management decisions on their clients' investment returns. Finance professionals are experts in the science of money management. There is a growing demand for finance professionals at the personal and corporate levels who can predict market fluctuations, assess risk levels and allocate scarce resources while increasing value for stockholders.

Admission Criteria:

Overall GPA – 3.0

Business Administration Major GPA – 2.5, if transferring from another concentration in the Business Administration major

120 credits of coursework is required for the baccalaureate degree with a minimum 2.5 overall GPA, and a minimum 2.5 major GPA.
