

EDUCATIONAL FOUNDATIONS FOR ELEMENTARY TEACHERS WITH TEACHER CERTIFICATION IN GRADES K-6 (B.A.)

Educational Foundations for Elementary Teachers is a Bachelors of Arts degree that prepares students for a career in education, with the option of pursuing teacher certification in elementary education (Kindergarten-Grade 6). The course of study includes theories of learning, assessment, and human development, as well as key social, historical, and philosophical trends in American schools. It is designed to enhance students' core content knowledge in essential subject areas of Language Arts, Math, Science, and Social Studies. As such, our program provides its graduates with rigorous educational and content knowledge necessary to teach in elementary school classrooms.

Different from other majors, our program is comprehensive, multi-disciplinary, concise, and targeted; with only 120 credit hours to complete the degree. Admission to the Teacher Education program is a separate process. Students interested in earning a K-6 certification will find that our program provides a seamless transition and alignment with the course of study needed for certification. Alternatively, for those individuals who do not intend to pursue certification, our program includes 27 credits as free electives, to provide students with a range of options to earn another major or minor.

Students who wish to pursue K-6 teacher certification in Elementary Education must apply and be admitted to the Teacher Education Program. Once admitted, students will be matriculated into the B.A. in Elementary Education (<http://catalog.montclair.edu/programs/elementary-education-ba/>) program as a second major.
