

# LIBERAL STUDIES (B.A.)

The path to degree completion might look different for everyone. Whether you are returning to complete your undergraduate degree from Montclair or are transferring from another institution, you will receive personalized support and guidance to finish what you started every step of the way.

The Bachelor of Arts in Liberal Studies program is designed around the diverse and busy lives of working adults over the age of 25 who are looking to continue their college education but need the support and flexibility of a non-traditional undergraduate degree program. Classes are fully online and are scheduled in 8-week terms. This provides maximum flexibility for busy adults while allowing for an accelerated degree completion timeline.

Students choose one of the two Concentrations: Humanities or Education Studies.

## Humanities Concentration

The Humanities concentration is built upon the existing state-approved B.A. in Humanities and emphasizes obsolescence-proof cognitive skills transferable to a wide range of career paths. Humanities concentrators acquire habits of analytical and critical thought, practice techniques of interpretation, gain intercultural awareness, and learn to approach cultural contexts comparatively. Graduates of this concentration have expertise in knowledge management, which encompasses the ability to analyze, evaluate, and synthesize information from a broad spectrum of sources, construct logical arguments supported by evidence, and articulate ideas clearly in oral and written formats. Humanities graduates pursue careers in many areas, including business, communications, health care, law, social work, and education. Many will transition directly from our program into the work force, but some pursue further education and earn professional credentials or graduate degrees in a variety of Humanities and social science disciplines.

## Education Concentration

This concentration provides an in-depth exposure and engagement with education as a social, cultural, and political human endeavor, that historically has served to induct the young into the larger social and economic fabric of nations. Furthermore, this concentration through its coursework provides insights and understandings about education as a life-long engagement for human improvement, hence transcending the younger years into different stages of life.

An array of foundational courses provide different disciplinary perspectives, where students not only learn about education and schooling but also learn how disciplines construct the knowledge base for practitioners, researchers, and policymakers. In addition, coursework in this concentration offers opportunities to learn about human development, social systems, families, and communities.

In addition to learning about education and human improvement as a liberal art, Educational Studies will enable graduates to apply for the Masters of Arts in Teaching at Montclair State University. Hence, Educational Studies focuses on developing well-rounded, creative, and inquiry-oriented educators who have broad subject matter knowledge of topics taught in elementary schools, and who are committed to the betterment of children, communities, and society. The need for such learning experiences responds to the concept that teachers are intellectuals who know their students, who know the context of the

communities, and who have a broad understanding of the subject matter they will teach.

## Degree Requirements Overview

Code	Title	Credits
	New Student Seminar	1
	SEEDS General Education Requirements	31-33
	Major and Concentration Requirements	30
	Free Electives	58-56
<b>Total Credits</b>		<b>120</b>

Complete one course from four different Exploration categories.		12
<i>Analyzing Cultures and Societies</i>		
<i>Creative Expression</i>		
<i>Ethical Inquiry</i>		
<i>Historical Thinking</i>		
<i>Literary and Artistic Analysis</i>		
<i>Scientific Reasoning</i>		
<b>Total Credits</b>		<b>30-33</b>

## Recommended Roadmap to Degree Completion

This recommended degree plan is provided as an outline for students to follow in order to complete their degree requirements within four years and 120 credits. This plan is a recommendation and MUST be used in consultation with their academic advisor. Important note: Students should be aware this plan assumes no pre-requisite coursework is required. If pre-requisite coursework is needed, students may have additional requirements to fulfill which do not appear on the plan.

The recommended Roadmap assumes 60 credits accepted in transfer, including SEEDS General Education courses. Credit requirements and time to degree completion are subject to change based on full time status and total number of credits accepted in transfer.
